

ICOMOS-UK Evening Seminars 2011: WORKING INTERNATIONALLY IN THE CONSERVATION FIELD

A series of three evening seminars

5th April, 17th May, 7th June 2011, 6-8.30pm
 The Gallery, Cowcross Street, London, EC1M 6EL

As many ICOMOS members and others are seeking opportunities to expand their work into the international field, these three evening workshops will explore different dimensions of international conservation work. They aim to share the experience of members who have worked successfully outside the UK and to demonstrate the value of ICOMOS as an international networking platform.

Each seminar will explore the types of services that can be most effectively offered by UK consultants and practices and will address issues such as winning and negotiating contracts, payments, taxes and insurances, standards and regulations, specifying and procuring local materials, working with and training local counterparts, working, living and travelling abroad.

- Two speakers will talk about complementary and contrasting experiences
- Two other members with similar experience will join a panel for a question and answer session
- The evening will end with wine and an open networking session
